Apply to: SOFTWARE TESTING STAFF

Dear ITiec Company,

I'm very happy to receive a job application on ITviec.com about your company's need to recruit testing positions for internship. After carefully reading the job description, I am also confident with myself to meet the needs of the company..

During my studies at school, I used to participate in many large assignments and in many different languages. In addition, I am a person who meets a high level of work and can work well under pressure.

Yours sincerely,

Le Quoc Phat
